Sketchnoting

Visual Notetaking

What is "sketchnoting"? -- "Creating a personal visual story as one is listening to a speaker or reading a text" (Mike Rhode, Sketchnoting)

Why use sketchnoting?
- Enhances memory and retention of information by creating multiple cues
- Improves your understanding by making textual/verbal connections visually
- Fun way to take notes

Key Elements of Sketchnoting:
- **Text** – highlight key terms from supporting details; visual mnemonics; translate concepts into a language you speak
- **Images** – translate words into pictures
- **Structure** – organizes flow of information and creates relationships of information and thoughts (charts, graphs, maps); illustrate trends, patterns

---

Give It a Try!
Directions: Make some doodles showing your understanding of sketchnoting. Use the notes above as your key content for your doodles.
